Cyril GHALI
SOFTWARE ENGINEER 🌐 ⌨ 💼

contact@cyrilghali.fr

Paris, France

Profile

Full-stack engineer with 1+ year of experience.

Implemented and scaled systems for early-stage and big companies.

Experience

KPMG | Lxuembourg   Mar. 2023 - Aug. 2023
Platform Engineer

Monitored cloud-native applications within a **Kubernetes** environment.

Devised **Python** & **Shell** scripts, slashing Azure DevOps workflow duration by 90%.

Managed both **Azure** and on-premise environments.

Enhanced CI/CD pipelines and integrated **ELK** Stack across 150 applications.

Crafted **Ansible** playbooks for efficient configuration management tasks.

Supported five software teams, optimizing their CI/CD workflows.

Goodwave | (Startup Studio) Remote   Sep. 2021 - Feb. 2022
Full-Stack Engineer

Sole engineer behind the development of multiple products within the studio, including Laserpitch, Sonar and Techno & Chill

Transformed the business concept of Laserpitch into a practical SaaS solution, guiding the product lifecycle from ideation to launch.

Developed both the frontend and backend of Techno & Chill, ensuring a seamless user experience.

Constructed Sonar's back-office system, enhancing administrative efficiency.

Utilized a tech stack of **Next.js**, **Nest.js**, **Typescript**, **MongoDB**, **AWS**

Education

MSc in Software Engineering | EPITA Paris (France)   2018 - 2020

Relevant Coursework : Software, System, Networks and Algorithm

Minor of Entrepreneurship : UX Design, Product Management, Sales and Customer Success

Programming projects: Custom shell, IDE and a web server from scratch using Java, C, C++ or Python
